

INKS FOR VIDEOJET PRINTERS

Ink #	Makeup #	Videojet Ink #	Product Type	Notes
SR42	SR42MU	16-42SR 16-50SR	Acetone	plug and play for 16-SR50
SR80	SR85 SR850	16-80SR Plug & Play	Ketone	* MP contains (1) SR80 and (3) SR85 MP CLR contains (1) SR80 and (3) SR850 12 month shelf life **
10	105	N/A	Ketone	General Purpose Black Ink , glass,metals, plastics based, methanol-free Blacker, Fade resistant, better adhesion on most surfaces penetration to oily surfaces when replacing 16-8200 Ketone - Better Flush required 24 month shelf life
11	115	16-8200 16-8700 Plug & Play 16-8200 Ink Refresh 16-8700	Methanol	General Purpose Black Ink Recommended for Bakery and Dairy applications Methanol based, Ketone-free Excellent adhesion to glass runnability equal to 16-8200 Recommended where caustic washability is required. for printing on polycarbonate water bottles Printer Great 24 month shelf life
11 BLU	115	16-7900 Flush	Methanol	General Purpose Blue Ink version of 11 ink Excellent replacement for 16-7900 in most cases without the sensitivity to humid conditions adhesion to glass Blue Good 24 month shelf life
11 CWP	115 or 501	Exclusive IJI Development	Methanol	Recommended for water bottling and other applications that require safe code removal using a lower concentration of caustic wash Recommended for Bakery and Dairy applications 24 month shelf life
11 RED	115 or 501	16-8300 or 16-8100 Plug & Play 16-8300 Ink Refresh 16-8100		General Purpose Red Ink Recommended for Bakery and Dairy applications 24 month shelf life
12	125 or 501	16-2300 Plug & Play	Methanol	Methanol Invisible Fluorescent Ink Replacement for 16-2300 Incompatible with 16-2330 and 16-2440 inks blush when exposed to water heat and prolonged exposure to sunlight Will Fades with 24 month shelf life
15i	509 i or 509	16-8700 Plug & Play* (See Notes)	Methanol	Black Graphics Ink comparable to 16-8700 to plastics and coated paper graphics application humidity is a concern large temp swings are encountered needed. Adheres well Uses 509 makeup in Uses 509i where high High maintenance ink where Used when water tolerance is needed. **The OEM product has a particular problem. The customer can switch to our product without a flush if they are not experiencing problems with the ink, otherwise a flush and filter change is required. 24 month shelf life
15i CYN	509i/509	16-8740 Plug & Play w/ Ink Refresh	Methanol	12 month shelf life
15i GRN	509i/509	16-8730 Plug & Play w/ Ink Refresh	Methanol	Green Graphics Ink comparable to 16-8730 to plastics and coated paper graphics application humidity is a concern large temp swings are encountered needed. Adheres well Uses 509 makeup in Uses 509i where high High maintenance ink where Used when water tolerance is needed. 24 month shelf life
15i GRY	509i/509	None	Methanol	Grapics COLORS Same Application as 16-8700 12 month shelf life
15i RED	509i/509	16-8710 Plug & Play w/ Ink Refresh	Methanol	Grapics COLORS Same Application as 16-8700 24 month shelf life

15i YEL	509i/509	None	Methanol	12 month shelf life
16 HVR	155	None	Methanol	High Vis Red , Fast Dry, Pricing dependent on quantity 24 month shelf life
17	175		Ketone	No Methanol
17i	175i	16-8420 (SEE NOTES) Plug & Play w/ Ink Refresh	Ketone	General Purpose Black Ink, glass, metal, plastics. More aggressive, better adhesion than 16-8200 Replaces 16-8420 in most applications with the exception to alcohol resistance with a good penetration to oily surfaces Penetrates slight layer of condensation, cold fill application. Resistant to caustic wash 24 month shelf life
17i DBL	175i	None	Ketone	Blue version of 17i
17 GRN	175i	None	Ketone	Green Ink, Pricing dependent on quantity ordered 24 month shelf life
17i HVR	175i	None	Ketone	High Visibility Red Ink , for printing on Black substrates End-user properties similar ink
17i ORG	175i	None	Ketone	Orange ink, Pricing dependent on quantity ordered 24 month shelf life
17 RED	175i	None	Ketone	Red version of 17 ink, high viscosity not work in Excel 37e printer May 24 month shelf life
17i RED	175i	None	Ketone	Lower viscosity Red ink Use in all printers Will work well in Excel 37e printer 24 month shelf life
17i YEL	175i	None	Ketone	Yellow ink, for printing on white substrates, Unsuitable for black substrates 24 month shelf life
19	195		Ketone	Excellent choice for DRY glass bottling applications Easily removable on returnable glass with 2-3% caustic wash Fast dry time (1-2 sec) where water resistance is required Excellent adhesion to glass, metal, and plastic 24 month of shelf life
20	205	16-5600 Plug & Play	Ketone	Milspec Ink, Comparable to 16-5600 Critical to use 2050 cleaner to wash off 20 ink Alcohol-resistant ink IR - readable ink Fade resistant, good adhesion to glass Non- thermochromic replacement for 16-8600 24 month shelf life
20 RED	205	None Plug & Play	Ketone	Red version of 20 ink Critical to use 2050 cleaner to wash off 20 ink 24 month shelf life
23 INV	265	16-2330/ 16-2340 Flush	Ketone	Invisible fluorescent ink suited for non-porous industrial products (glass, metal and plastic). This ink becomes visible when exposed to long wave ultra-violet light of 365 nm. 12 month shelf life
24 BLU	245	16-8540 16-8550 Flush	Ketone Methanol	Superior performance for wet bottling applications Better adhesion to WET glass, than 19 Easier removal with caustic solution verses Videojet 16-8540 and 16-8550. Requires 1 hour cure time prior to ice bucket soak resistance 12 month shelf life
25P WHT	501	16-2520 Plug & Play	Ketone Methanol	White pigmented ink developed to run in Videojet Excel pigmented printer Provides a bright, high contrast opaque mark on dark substrates such as glass, plastic, and polyethylene painted product. Dry time (less 3 sec.) SHAKE WELL BEFORE USE. Refer to data sheet for special ink storage instructions
25P YEL	501 or 510	16-2500 Plug & Play	Ketone Methanol	Yellow pigmented ink developed to run in Videojet Excel pigmented printer Provides a bright, high contrast yellow mark on dark substrates such as glass, plastic, and polyethylene painted products. Dry time (less 3 sec.) depending upon substrate and environment Refer to data sheet for special ink storage instructions 6 month shelf life
				Black darkest ink jet ink

26	265		Ketone	<p>Black, Darkest Ink Jet Ink</p> <p>Requires special changeover procedure. Incompatible w/ Alcohol Retort (heating/sterilization) ink</p> <p>Wire and cable ink, excellent adhesion to glass, most plastics</p> <p>Will run in VJ 37e printer</p> <p style="text-align: right;">24 month shelf life</p>
27	275 or 518	16-5700 Plug & Play w/ Ink Refresh	Ketone	<p>Black Fast Dry (< 1 sec) Ink, replacement for 16-5700 than 16-5700</p> <p>Darker</p> <p>Special printer shutdown procedure as in 16-5700</p> <p>Excellent on Vinyl substrates for Wire and Cable appl.</p> <p>Good adhesion to treated polyolefins and other plastics</p> <p style="text-align: right;">24 month shelf life</p>
27 BLU 27 GRN 27 ORG 27 RED 27 YEL	275 or 518		Ketone	<p style="text-align: center;">Colors for wire marking</p> <p>Excellent on Vinyl substrates for Wire and Cable application</p> <p>is transparent, will not be readable on dark substrates</p> <p style="text-align: right;">27 YEL</p> <p style="text-align: right;">12 month shelf life</p>
28	576	16-7620 16-7600 Plug & Play w/ Ink Refresh	Ketone	<p>Black Improved version of 16-7620</p> <p>Improved adhesion on HDPE and other plastics</p> <p>Excellent on Vinyl substrates for Wire and Cable application</p> <p style="text-align: right;">24 month shelf life</p>
29 BLU	607	16-2900 Plug & Play	Ketone	<p>Pigmented ink (Does not require pigmented printer)</p> <p>Has</p> <p>excellent light fastness (fade resistance)</p> <p>Heat (autoclave) resistant</p> <p>Excellent for pharmaceutical & cable industries</p> <p>Excellent on PVC, metal, plastic</p> <p style="text-align: right;">12 month shelf life</p>
29P LT Blue	295	16-2562 Flush w/ fliter change	Ketone	<p>Limited Release Shows up well on almost any color. Excellent contrast on white as well as black substrates</p> <p style="text-align: right;">6 month shelf life</p>
29 RED	607	16-2800 Plug & Play	Ketone	<p>Pigmented ink (Does not require pigmented printer)</p> <p>Has</p> <p>excellent light fastness (fade resistance)</p> <p>Heat (autoclave) resistant</p> <p>Excellent for pharmaceutical & cable industries</p> <p>Excellent on PVC, metal, plastic</p> <p style="text-align: right;">12 month shelf life</p>
29P W	295	16-2560 Flush w/ fliter change	Ketone	<p style="text-align: center;">White Pigmented ink</p> <p>Excellent durability for wire and cable</p> <p>Shows up well on dark substrates</p> <p style="text-align: right;">6 month shelf life</p>
29i P W	295		Ketone	<p style="text-align: center;">White Pigmented ink</p> <p style="text-align: right;">6 month shelf life</p>
29 YEL	295	16-2570 Flush w/ fliter change	Ketone	<p>Opaque yellow Pigmented ink (Does not require a pigmented printer) Excellent</p> <p>adhesion to most plastics such as PVC, acrylic, PET, polystyrene, and nylon</p> <p>Exceptional rub resistance to motor oil, caustic wash, anti freeze transmission fluid, windshield washer, and 10% acid</p> <p style="text-align: right;">12 month shelf life</p>
31i	315i	16-7130 Flush	Ethanol	<p>Excellent adhesion on plastic, metal and glass Ethanol based ink - MEK and Methanol free Dry time of 2 - 4 seconds depending on the substrates 12 month shelf life</p>
33	275/518	16-5733 Plug in Play	Ketone	<p>Used for electronic industry</p> <p style="text-align: right;">24 month shelf life</p>
34i 35-Q	518 or 611	16-8530 Plug & Play w/ Ink Refresh	Ketone	<p>Excellent penetration and adhesion to waxy or greasy substrates, such as those used in packaging milk and juice products</p> <p>Secondary substrates include glass bottles, metal cans and coated paper stock</p> <p>Penetrates condensation, excellent for freezer and cold storage substrates</p> <p style="text-align: right;">24 month shelf life</p>
40i	452	16-4530 & 40 Plug & Play w/ Ink Refresh 16-4510 Flush	Acetone	<p>General Purpose Black Ink with Excellent adhesion to glass</p> <p>Methanol and MEK free, Low VOC ink</p> <p>Recommended in all VJ Printers, in Excel UHS requires daily maintenance</p> <p style="text-align: right;">12 month shelf life</p>

47	265	16-8470 Plug & Play w/ Ink Refresh	Ketone	Fast dry, black ink designed for videojet printers and will code on flexible packaging films such as coated and uncoated BOPP and OPP typically used in the tobacco and food packaging industries. Excellent adhesion on coated plastic cards used in the telecommunications and credit card industries.
52	520	16-1200 16-5020 Plug & Play w/ Ink Refresh	Water	Black Improved version of 16-5020 Dries as fast as or even faster depending on substrates Equal to or better print contrast depending on substrates Piggyback w/ ink refresh and recalibration 36 month shelf life
60	504	16-8600 Plug & Play	Ketone	Developed to print on metal cans and plastic pouches before retort. Moderate to rapid dry time, usually less than 1-3 seconds. 60 ink can withstand the retort process with minimal effect on the printed message and by design the retort process changes the ink color from black to blue. 18 month shelf life
63	175	16-8630 and 16-8620 Plug & Play w/ Ink Refresh**	Ketone	This ink changes color when exposed to heat and moisture during the retort process used in the can food industry. Changes from black to red. Must use 175 as makeup **16-8620 has been known to have precipitation problems which can form and leave behind particles in the printer. If the customer is experiencing problems with 16-8620, a flush and filter change is required prior to loading the 63 ink. 12 month shelf life
64 FT	645	16--8640 Flush	Alcohol	Black to blue thermochromic ink. Alcohol 12 month shelf life
65 FT	655	16-8650/ Easterday 4150 Flush	Alcohol	Black to blue thermochromic ink. MEK and Methanol free 12 month shelf life
78 BLU	501	16-8000 Plug & Play w/ Ink Refresh	Ketone	Purple Ink with excellent resistance to solvents used in the automotive industry. Can penetrate thin layer of oil on metal auto components Applications include canning, automotive, and all metal and plastic packaging. 24 month shelf life
78 RED	501	16-8000 Flush	Ketone	Red Ink with excellent resistance to solvents used in the automotive industry Can penetrate thin layer of oil on metal auto components Applications include canning, automotive, and all metal and plastic packaging. 24 month shelf life
79	503	16-7900 Plug & Play	Ketone	Purple General Purpose Ink Excellent adhesion on glass, metal, plastic, paper For applications on cans or aerosols where penetration of a light oil coating is required 1-3 second dry time 24 month shelf life
81 Red	815		Ethanol	Red HAPs-free ink Methanol and MEK free 24 month shelf life
81 INV	815		Ethanol	Invisible HAPs-free ink MEK free Methanol and 24 month shelf life
82	501	16-8200 Plug & Play	Ketone	General Purpose Black Ink Slightly faster dry time and darker print on most substrates vs. the 16-8200 Ideal choice on returnable glass bottles, where easy code removal is desired 18 month shelf life
82 RED	503	16-8300 Plug & Play	Ketone	General purpose fluorescent red color ink for Videojet printers. Typical applications include glass or plastic containers, machined parts, plastic or metal lids, and resin-coated paper stock. 18 month shelf life
84	265		Ketone	new version of 30i Exhibits superior alcohol rub resistance Excellent adhesion on plastic, metal and glass Exhibits enhanced chemical resistance to soaps and lubricants Has excellence light fastness (fade resistance) 24 month shelf life

85FT	545	16-8540 & 16-8550	Ketone	WET Cold Glass Ink BLACK in color Superior performance Wet Glass Ink Easy removal with Caustic solution better than 16-8540/8550 Requires one hour cure time prior to ice bucket soak resistance 12 month shelf life
85YEL-FT	295	16-8570 Plug & Play	Ketone	General purpose yellow pigmented ink No Pigment printer needed Typical applications include glass or plastic containers, metal. 6 month shelf life
92BLUFG	915FG	16-9230	Water	Blue Eggshell ink
92REDFG	915FG	16-9210	Water	Red Eggshell ink
90FT	905FG	16-9000	Ethanol	Blue EggShell ink Mfg under Good Mfg Practices 12 month shelf life
93FT	935FG	16-9301 Plug and Play	Ethanol	Red EggShell ink Mfg under Good Mfg Practices 12 month shelf life
94FT	905FG	16-9400 Plug	Ethanol	Light Blue Ink Food Grade for Diaper Application
ATZ800066	ATZ800067	AZ800066 Plug & Play	Acetone/ Ethanol	MEK and Methanol free Black Ink for SR/Print Pro Dry time of 1 - 2 depending on substrates 12 month shelf life
VW602	WIL201-0001-401	V0001-602 Plug & Play	Ketone	Black General purpose ink Willet/VJ printer Superior printing and excellent adhesion on substrates such as plastics, metal, paper, wood, ceramic and glass. Will survive the Autoclave process when printed on glass, rigid plastics and metals.
VW-090FG-C	VW-910-C	V495-D	Ethanol	Blue EggShell ink Mfg under Good Mfg Practices 18 month shelf life
VW-093FG-C	VW-910-C	V495-D	Ethanol	Red EggShell ink Mfg under Good Mfg Practices 18month shelf life
VW-103-C	VW-403-C	V410-D	Ketone	Excellent penetration and adhesion to waxy or greasy substrates, such as those used in packaging milk and juice products Secondary substrates include glass bottles, metal cans and coated paper stock Penetrates condensation, excellent for freezer and cold storage substrates 18month shelf life
VW-104-C	VW-404-C	V401-D	Ketone	General Purpose Black Ink, glass, metal, plastics. More aggressive, better adhesion than 16-8200 Replaces 16-8420 in most applications with the exception to alcohol resistance with a good penetration to oily surfaces Penetrates slight layer of condensation, cold fill application Resistant to caustic wash 18month shelf life
VW-106-C	VW-406-C	V411-D	Ketone	fast dry, black ink designed for Videojet printers and will code on flexible packaging films such as coated and uncoated BOPP and OPP typically used in the tobacco and food packaging industries. Excellent adhesion on coated plastic cards used in the telecommunications and credit card industries. 18 month shelf life
VW-103-AC	VW-403-AC	V410-AD	Ketone	Excellent penetration and adhesion to waxy or greasy substrates, such as those used in packaging milk and juice products Secondary substrates include glass bottles, metal cans and coated paper stock Penetrates condensation, excellent for freezer and cold storage substrates 18month shelf life
VW-104-AC	VW-404-AC	V401-AD	Ketone	General Purpose Black Ink, glass, metal, plastics. More aggressive, better adhesion than 16-8200 Replaces 16-8420 in most applications with the exception to alcohol resistance with a good penetration to oily surfaces Penetrates slight layer of condensation, cold fill application Resistant to caustic wash 18month shelf life
VW-106-AC	VW-406-AC	V411-AD	Ketone	Fast dry, black ink designed for Videojet printers and will code on flexible packaging films such as coated and uncoated BOPP and OPP typically used in the tobacco and food packaging industries. Excellent adhesion on coated plastic cards used in the telecommunications and credit card industries. 18 month shelf life
VW-211-C	VW-411-C	V461-D	Ethyl Acetate	Ethyl acetate black ink 18 month shelf life

VW-412-C	VW-717-C	V412-D	Ketone	black ink	18 month shelf life
VW-437-C			Ketone	black ink mek base	18 month shelf life
VW-459-C	VW-404-C	V459-D	Ketone	UV invisible (clear) ink	18 month shelf life
VW-490-C	VW-720-C	V490-C	Ketone	white pigmented ink	6 month shelf life
VW-505-C	VW-820-C	V505-D	Ketone	UV invisible (clear) ink	18 month shelf life
VW-506-C	VW-814-C	V506-D	Ketone	black ink	18 month shelf life
VW-507-C	VW-822-C	V507-D	Ketone	black ink	18 month shelf life

INKS FOR DOMINO PRINTERS

Ink #	Makeup #	Domino Ink #	Product Type	Notes
801i	0120i CLR	BK0101 Plug & Play	Ketone	Reservoir is supplied with 2000hrs timer Chip
801i RED	0120i CLR	N/A	Ketone	Red Ink ERC=extended run chip (2000 hrs) 12 month shelf life
807i	0720 CLR	BK0701 Plug & Play	Ketone	Alkali washable with excellent adhesion ERC=extended run chip (2400 hrs) Infinite Run Chips are sold separately. Please refer to the glossary for the part # and pricing. 12 month shelf life
807i BLU	0720 CLR	BL0702 Flush	Ketone	Perform similar 807i 24 month shelf life
823	2320 CLR	BK2301 Flush w/ filter change	Ketone	Black Retortable Ink ERC=extended run chip (2000 hrs) Infinite Run Chips are sold separately. Please refer to the glossary for the part # and pricing. 12 month shelf life
827	8271	BK2701 Flush w/ filter change	Ketone	Black wire marking ink, replacement for BK2701 printer flush during changeover Infinite Run Chips are sold separately. Please refer to the glossary for the part # and pricing. Requires complete Fast drying 18 month shelf life
829	2920 CLR	BK2901 Flush	Ethanol	JetArray Black Alcohol ink excellent for bakery and dairy industry ERC=extended run chip (2000 hrs) Infinite Run Chips are sold separately. Please refer to the glossary for the part # and pricing. 24 month shelf life
DOM 0741	740	RF0741 Plug & Play	Ketone	For use in a Bit-jet printer Direct replacement for Domino RF-0741 ink Used for mailing, postal systems. Well suited for graphics applications including coated paper stock. 12 month shelf life
DOM 2501	2520 CLR	BK2501 Flush w/ filter change	Methanol	JetArray black alcohol ink General purpose ink Advisable for an IJI Service Engineer to perform JetArray conversions Infinite Run Chips are sold separately. Please refer to the glossary for the part and pricing. 12 month shelf life
		BK2501 Super		JetArray black acetone ink **A flush and filter change is required and it is highly

DOM 6601	DOM 6620	Flush BK9601 Flush w/ filter change	Acetone	recommended that a service Engineer be involved in the process. 12 month shelf life
DOM 9601	Dom 9621	BK 9601 Plug & Play **See Notes	Acetone	Used for graphic applications and with a dry time of less than 2 seconds. **DOM 9601 does not require a flush prior to the ink conversion when replacing BK9601, however a flush is highly recommended due to the high maintenance requirements of BK9601. If DOM 9601 is replacing a methanol based ink such as BK2501 or IJI's DOM 2501, a full flush with 960s Ultra Flush and filter change is required. 12 month shelf life
JA7001	2121	BK7001 Plug & Play	Ketone	JetArray Black Ketone ink 24 month shelf life

INKS FOR IMAJE PRINTERS

Ink #	Makeup #	Imaje Ink #	Product Type	Notes
IMA50	IMA505	Imaje 5550 Flush w/ filter change	Ethanol	Black, general purpose ink suited to print on metal, glass and plastic. This ethanol based ink is specifically designed to meet the environmental requirements that are required for MEK and Methanol free ink. 12 month shelf life
2159-H	303	Imaje 9174 Imaje 5135 Imaje 9154- 9155 Imaje 9175 Imaje 5157E Plug & Play	Ketone	Formulated for excellent adhesion to plastics Can also be used as general purpose black ink One second dry time 18 month shelf life
IMA554	IMA154	5554 Flush	Ketone	For Printing on wire and cable, also PVC. 1-2 second dry time Excellent lightfastness 12 month shelf life
IMA5117	IMA5118	5117 Flush	Ketone	For Printing on wire and cable, also PVC. 1-2 second dry time Excellent lightfastness 12 month shelf life
IMA5149		Imaje 5149 Flush	Ketone	White pigmented ink. 6 month shelf life
				White pigmented ink.

IMA5160		Imaje 5160 Flush	Ketone	6 month shelf life
IMA5151	IMA5152	Imaje 5151 Flush	Ketone	Yellow pigmented ink. 6 month shelf life
IMA5132		Imaje 5132 Flush	Ketone	Yellow pigmented ink. 6 month shelf life
IMA5553	IMA255	Imaje 5553 Plug & Play	Ketone	Invisible fluorescent ink developed for non-porous industrial products such as glass, metal and plastic. 12 month shelf life

INKS FOR WILLET PRINTERS

Ink #	Top up #	Willet Ink #	Product Type	Notes
WIL601	WIL601	201-0001-601 Plug & Play	Ketone	General purpose black ink for most plastics and metals 12 month shelf life
VW602	WIL602	201-0001-602 Plug & Play	Ketone	Black General purpose ink Willet/VJ printer Superior printing an excellent adhesion on substrates such as plastics, metal, paper, wood, ceramic and glass. Will survive the Autoclave process when printed on glass, rigid plastics and metals. Dry time is typically at 0.5-1.5 seconds depending on the ambient conditions and substrate. 18 month shelf life
WIL630	WIL630	201-0001-630 Plug & Play	Ketone	Black Ink 12 month shelf life
WIL603	WIL603	201-0001-603 Plug & Play	Ketone	General purpose red ink for most plastics and metals 12 month shelf life
WIL644	WIL644	201-0001-644 Plug & Play	Ketone	Alcohol Resistant Black Ink
WIL624	WIL624	201-0001-624 Plug & Play	Poly	Diaper Blue Ink- Wetness Indicator 12 month shelf life
WIL619	WIL619	201-0001-619 Plug & Play	Ketone	General Purpose Fast Drying MEK Black Ink 12 month shelf life
WIL626	WIL626	201-0001-626 Plug & Play	Ketone	Mek Autoclave Black Ink 12 month shelf life
WIL607	WIL607	201-0001-607 Plug & Play	Ethanol	Ethanol General Pourpose Black Ink 12 month shelf life
WIL012	WIL012	201-CJ01-012 Plug & Play	Ketone	MEK Polycoding Black Ink 12 month shelf life
WIL013	WIL013	201-CJ01-013 Plug & Play	Ketone	Alcohol resistant Black Ink 12 month shelf life
WIL033	WIL033	201-CJ01-033 Plug & Play	Ketone	General Purpose Blue Ink 12 month shelf life
WIL211	WIL211	201-CJ01-211 Plug & Play	Ethyl Acetate	Ethyl Acetate General Purpose Black Ink 12 month shelf life
WIL085	WIL085	201-CJ04-085 Plug & Play	Ketone	White Pigmented Ink 6 month shelf life
